THE GOLD STANDARD FOR QUALITY ALARM INSTALLATIONS

Why Choose an IQ Certified Alarm Company?

The IQ logo is a symbol of professional, high-quality installation and service for security and life safety systems. Whenever you see the IQ logo, you can be assured that the alarm company is proudly meeting all established technical and customer service standards of quality and ethics in providing electronic security and life safety systems.

Companies interested in becoming IQ Certified must abide by a comprehensive series of procedures and policies established by an independent third party that set them above other security alarm companies in their community.

“ In this day and age, it is important for **home and business** owners to fully trust the people they choose to secure their premises, possessions and most importantly, their loved ones. ”

How IQ Certification

Benefits You

- ▶ IQ eliminates the guesswork associated with finding a highly competent and professional alarm company.
- ▶ You are assured that installers have completed a nationally recognized training program.
- ▶ IQ companies agree to observe a rigorous code of ethics.
- ▶ IQ companies follow specific quality control measures on each system.
- ▶ Installers will complete an Installation Quality Checklist with you.
- ▶ Installers remain with you until you are fully satisfied with all aspects of the system and installation.
- ▶ All users of your alarm system will be fully trained in its proper operation.
- ▶ IQ companies are dedicated to reducing false alarms and saving you hundreds of dollars in fines.
